

Breather Vent (4")

FTV-1004TPO **One-Way TPO**

FTV-1013TPO **Two-Way TPO**

DESCRIPTION

A compact vent that relieves air pressure and moisture from the roof assembly. The membrane-clad base heat-welds to the field sheet for a watertight seal. Available one-way (exhaust only) or two-way (breathes in both directions) to suit the assembly, and offered in TPO or PVC.

FEATURES

- Compact, low-profile passive vent
- Relieves trapped moisture and pressure in the roof assembly
- Membrane-clad base heat-welds to TPO or PVC
- One-way (exhaust) or two-way configurations
- Available in TPO or PVC

SPECIFICATIONS

Nominal size	4 in
Base	Membrane-clad (TPO / PVC)
Configurations	One-way / two-way
Unit	Each

Membrane compatibility: Assembly pressure / moisture relief on TPO and PVC single-ply roofs.
