

Solar Anchor Boot

FTA-1018 TPO

FTA-1019 PVC

DESCRIPTION

A prefabricated flashing that seals roof-mounted solar stanchions and similar structural attachments on single-ply roofs. The membrane-clad boot heat-welds around the anchor to keep the penetration watertight while the mounting hardware passes through.

FEATURES

- Flashes solar mounting stanchions and anchors
- Membrane-clad — heat-welds to TPO or PVC
- Maintains a watertight seal at structural attachments
- Consistent factory-made detail across the array

SPECIFICATIONS

Cladding	TPO or PVC membrane
Application	Solar stanchions / roof anchors
Unit	Each

Membrane compatibility: Solar racking attachments on TPO and PVC single-ply roofs.
